

H.O.P.E.

COOLING THE HEAT!

Be inspired and join us for this conference dedicated to improving heat resilience among older adults and connect with colleagues in the field.

Investigate strategies for adapting and creating policies to better protect older populations from heat-related challenges.

Explore the innovative e-learning platform for Massive Open Online Courses, aimed at students and caregivers.

It includes a presentation and discussion of:

- Ecosystem guidelines;
- An international database of best practices;
- Recommendations for local, regional and European support.

**VENUE: HOUSE OF THE DUTCH PROVINCES,
RUE DE TRÈVES, 59-61,
